**FIREACTIV'S UNIQUE THERMAL PADS** reflect your own body's heat back into the affected area for fast, effective, targeted relief from pain.

- Fast, intense heat for effective pain relief
- Milder heat option for prolonged use
- Improves flexibility & joint mobility
- Infinitely re-usable – no batteries or wires
- Fully adjustable using Velcro fastening

## HOW THEY WORK

When placed against the skin the ceramic particles in the pads amplify the body's existing heat and radiate it back as deep heat into the body's muscle tissue. This same infrared radiated heat increases the blood and oxygen circulation speeding up the healing process.

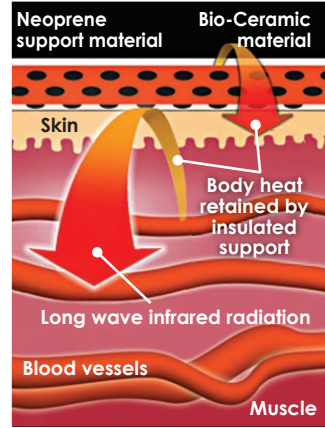

Each support comes supplied with 2 interchangeable heat pads which fit inside with adjustable Velcro fastening.

### RED PAD

Intense deep heat for fast pain relief. Typically suitable for shorter periods of time.

### WHITE PAD

Low intensity for use over extended periods during sport or other therapeutic activity.
